ABOUT OUR COMPANY

We are a highly excited and motivated community of like-minded individuals dedicated to creating a dynamic platform for collaboration and growth.

GLOBAL TRX is a fully automated, AI-driven software algorithm based on the Tron blockchain. It efficiently distributes partner rewards among community members. This platform connects people from all over the world, unlocking limitless possibilities within the new economy financial system.

By investing in TRX crypto currency, GLOBAL TRX enables individuals to connect globally and participate in a secure platform powered by the latest technology.

TRON (TRX)

What is tron (trx)

Tron is a decentralized, open-source blockchain-based operating system that features smart contract functionality and uses the Proof-of-Stake consensus algorithm. Its native cryptocurrency is known as Tronix (TRX).

Established in March 2014 by Justin Sun, Tron has been overseen by the Tron Foundation, a non-profit organization based in Singapore, since 2017. Originally launched as an Ethereum-based ERC-20 token, Tron transitioned to its own blockchain protocol in 2018.

OUR MOTIVE

Mission and Vision

Mission:

To revolutionize the global financial landscape by providing a secure and reliable platform that empowers individuals to store, invest, and transact with crypto assets. Our mission is to create a future where financial freedom is accessible to everyone.

Vision:

To empower individuals with secure and reliable crypto asset solutions, fostering financial freedom and inclusion through innovation, community collaboration, and sustainable growth.
